

Ref. no. GR/ADV/2017-2018/ALL/04

Dated : 24.07.17

Dear Valued Customer,

Greetings from Gateway Rail !

This is to inform you that there have been exceptionally heavy rains in Gujarat region resulting into rail traffic blockages as well as breaches on railway tracks. Train movement to and fro Mundra port is adversely affected on account of this.

Train operations in adjoining divisions is also running slow due to overflowing water on railway tracks in Ahmedabad division and EXIM trains are likely to get delayed / stabled in export as well as import direction.

The same is coupled with high import pendency at both the ports (Pipavav & Mundra) hence import evacuation may get delayed. Also, we request you to plan your export containers considering the delays due to above said reasons.

We would keep you posted on further developments in this regard. For any further queries, please feel free to get in touch with our ICD customer service desk.

Best Regards,
Customer Service Desk
