

Ref no. GR/ADV/2017-2018/ALL/09

Dated : 26.10.17

Dear Valued Customer,

Greetings from Gateway Rail !

This is to inform you that a restriction on loading of container rakes moving via “North Western Railways” has been imposed by Indian Railways in export as well as import direction for Gujarat Ports ie. Mundra and Pipavav. Same has been imposed on account of heavy pipe line, regular maintenance blocks on Ajmer division, power & crew shortage on North western railway, resulting in en-route congestion.

Hence there would not be any fresh loading to & fro Gujarat Ports for our ICD's on the following dates.

ICD's	Restriction Date
ICD - Garhi & Faridabad	26th Oct till midnight
ICD - Sahnewal	26th & 27th Oct till midnight

We are liaising with Indian Railways / concerned authorities and will keep you updated on this further. We expect your kind co-operation in the situation as we remain focused on clearance of in transit loads till then. You are requested to plan your shipments accordingly considering delays due to above said reasons.

We thank you for your continuous business support. Please feel free to get in touch with our ICD-customer services team on your specific queries, we will be happy to assist you.

Best Regards,
Customer Service Desk
Gateway Rail
