There is a healthy pipeline as the focus remains on increasing our market share, especially in the Rail Vertical. We are hopeful that the Red Sea crisis will come to an end soon and if shipping lines start using this route again there will be a significant boost to EXIM volumes for India. We continue to explore opportunities for developing new rail terminals to further expand our network. In December, GDL also met its target of crossing 50% shareholding in Snowman Logistics and is now a subsidiary.”
